

Jun Yan

✉ yanjun@usc.edu 🌐 junyann.github.io

RESEARCH INTERESTS

Trustworthy NLP (Security, Robustness), Question Answering, Information Extraction

EDUCATION

University of Southern California

Ph.D. in Computer Science

Los Angeles, CA, U.S.

08/2019 - 05/2024 (*expected*)

◦ Advisor: Prof. Xiang Ren

Tsinghua University

B.Eng. in Electronic Engineering

Beijing, China

08/2015 - 07/2019

◦ Advisor: Prof. Zhiyuan Liu

WORK EXPERIENCE

Research Intern @ Meta AI

Seattle, WA, U.S.

Language Understanding and Question Answering Team

05/2022 – 08/2022

- Mentors: Asish Ghoshal, Scott Wen-tau Yih, Asli Celikyilmaz, Pedro Rodriguez
- I studied the problem of finetuning text-to-text transformers (e.g., BART) for robust generalization to unseen test domains. I proposed a parameter-efficient finetuning method that encourages the model to skip unnecessary adapter layers during adapter tuning. By adaptively limiting the model's capacity, it alleviates the model's overfitting to the training data and achieves better out-of-domain generalization.

Applied Scientist Intern @ Amazon

Seattle, WA, U.S. (Remote)

Product Graph Team

06/2020 – 11/2020

- Mentors: Nasser Zalmout, Yan Liang, Xin Luna Dong
- I studied the problem of extracting attribute values from product profiles. I proposed a model that can handle the value extraction of many attributes. It uses an adaptive decoding mechanism that parameterizes the decoder based on the query attribute. The model achieves improved performance with knowledge sharing across attributes and demonstrates strong scalability with respect to the number of attributes.

HONORS AND AWARDS

- Annenberg Fellowship, University of Southern California. 2019.
- Excellent Graduate, Tsinghua University. 2019.
- Samsung/JJWorld/Evergrande Scholarship, Tsinghua University. 2016/2017/2018.

SERVICES

- PC/Reviewer: ARR, ACL(2021), EMNLP (2020-2022), NAACL(2021), IEEE TNNLS.

KEY SKILLS

Programming Languages

Python, C, C++, Java, MATLAB

Machine Learning Libraries

PyTorch, Scikit-Learn, NumPy, Pandas
